

TOOLS TO KEEP YOUR TURBINES TURNING.

Take us with you. When you're up in that tower, you want tools you can trust.

Since the beginning of wind power, we've designed special tools for turbines, gearboxes and blades.

We make them ourselves, for complete control from forging to finishes. In America,

as in 70 other countries, count on GEDORE to give you the right tools for the job,

make it easier and keep you safe. Ask for a catalog.
